

Updates 2023

We would like to thank all our clients for their invaluable feedback, and we look forward to continually working with you!

Curriculum

We have reviewed all the curriculum to run our updates on content and data. We took this opportunity to improve our courses and fix some functionalities.

- New and updated content covering sustainability, ESG, and renewables.
- Existing content has been reviewed and updated.
- Unification of terminology with Insights.
- New feedback form available for end-users.
- Audio and CCs updated and available on every page.
- Lightbox pops ups have been replaced with new style pop-up.
- Visited status has been added to buttons for users to follow their progress.
- Review and update of knowledge checks.
- Insight access is available throughout the courses and at the end of each chapter.

- Final assessment questions have been randomised.
- Talking head videos have been updated.
- SRTs and CCs added to every video.
- CPE credits available upon completion and NASBA accreditation continued.
- continued efforts to enhance 508 and WCAG compliance.

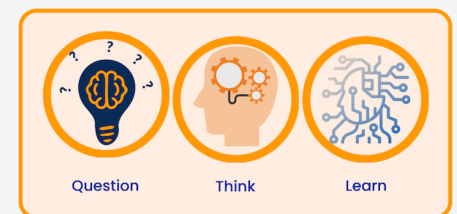

When is this happening?

The curriculum is available from November 2023. It will be reviewed on an 18 months basis. Should you require any customization, we would be happy to discuss your individual needs. Cambashi's industry insights updates will be available December 2023 and will continue to be reviewed and updated on a regular basis.

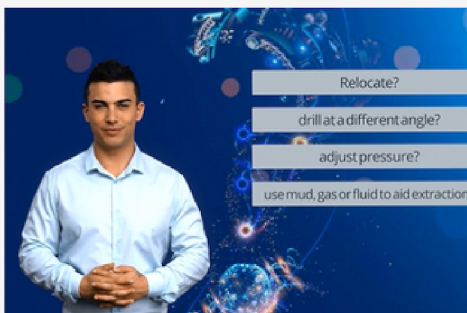

If you have any feedback, please contact us on support@cambashi.com.

Insights

Cambashi Insights offers tactical industry intelligence updated by industry experts. The platform complements our curriculum, and covers trends & challenges, business drivers, products & services, and key issues within each manufacturing industry.

- New updates on terminology definitions and new terms added to the glossary. The glossary is available for all clients.
- Improvements on design to support user's interaction: a related content section added, option to rate content, redesign of graphs and images, new resources to interact with content.
- Enhanced search functionality to show glossary terms and pages pathways.
- Review of all our content. We have developed new pages for each Insight (Covid-19, sustainability, software), and re-structured some of the content.

Future Road Map

We are dedicated to continue to improve and enhance our learning portfolio. If you would like to know more about our road-map, please do not hesitate to contact us. Our aim is to provide industry market data to enable a deeper insight into our current industries and their markets. Alongside some useful scenario based learning content. If you have any feedback, please contact us on support@cambashi.com.
